# INTRODUCTION

As the world around us is rapidly becoming more complex, the need for a private and secure communication channel within our trusted circles has become more important than ever before. Meanwhile, people are realizing that most social apps are selling their private information to third party advertisers to profit off the user's personal lives.

That is why DEXA COIN has developed a revolutionary social platform "DEXA Messenger" that emphasizes on user privacy & does not monetize user's information in any way. The platform is equipped with end-to-end chat & call encryption allowing users to communicate safely and openly in their social groups with HD voice/video calls, file sharing, along with the implementation of digital payments all within an easy-to-use platform.

DEXA Messenger integrates blockchain technology into its core system to empower the everyday users with access to this technology while also making digital payments instant & secure.

## COMPANY INFORMATION

A next generation Social Messenger Platform that emphasizes on your privacy and does not monetize your information in anyway. All messages are secured through the state of the art end -to-end encryption technology . DEXA Messenger houses all the features you would expect from a solid platform such as HD Voice & Video Calls , File Sharing , Create Groups / Communities and much more. The platform infuses blockchain technology into its core system that allow users to make seamless digital transactions while staying connected.

*Note :DEXA Messenger will Not support any privacy coins such as XVG, Zcash, Dash etc .The App will also incorporate appropriate KYC & AML compliance procedures to ensure the platform is not misused.*

## FEATURES

### **SOCIAL MESSAGING**

Socialize with friends & family through the social messenger. Chat, Interact, Create Groups have fun sharing Images, Videos, GIF, and More !

## VOICE & VIDEO CALLS

Enjoy high quality VoIP Voice & Video Calls over the network with one-to-one-calling & group calling. Voice Calls can scale from 1-to-1 calls to more participants as required. The system will automatically detect which users are speaking, allowing you to identify them in your interface.

Calls are encrypted end-to-end allowing full privacy and security.

## DIGITAL & IN-CHAT **PAYMENTS:**

Make digital payments with ease while staying connected. DEXA Messenger supports seamless In-chat digital transactions as well as external transactions outside the platform's ecosystem.

## LINK THE **APP** TO YOUR **PAYMENT CARD**

Load your account through the payment card. We will offer seamless integration with most payment cards.

## INSTANT **PAYMENTS**

Going out for dinner ? Picking up coffee for your team ? Make instant payments via QR Code Payment Technology.

## SECURITY & PRIVACY

We recognize that online security is a priority for our users and we are committed to ensuring that our platform will offer complete protection. Blockchain technology ensures security is robust and will be supported with a range of measures to ensure the safety and security of every user's digital wallet.

Apart from the extensive security features in the app, privacy protection is also an utmost priority. All messages are end-to-end encrypted, which limits the access of any third party and ensures the messages remain private between both users. The app will further be equipped with an attribute which detects and counters any unauthorized access.

## STATUS STORIES

Creating and Sharing **Moments**

Sharing Status **Stories**

- Paving the way to a more interactive and customizable story-telling.
- We believe that the community comes better together in involving each other by sharing stories - stories that are informative, inspirational, and stories that keeps the connection stronger.

Stories can be a reflection of what you feel, your mood and passion. So, share moments that makes you, YOU.

- Unlike any other platforms, you can customize the timeframe of your stories' visibility. Keep your special memories on display for as long as you want.
- Options to customize your stories' visibility :
  - 👉 **24 hours**
  - 👉 **1 week**
  - 👉 **Until I change**

## IN-CHAT **PAYMENTS** EXPLAINED

Peer-to-peer payments made easy with a touch of a button.

Simply click on the 'P' button and you will be able to access the crypto assets that you wish to send.

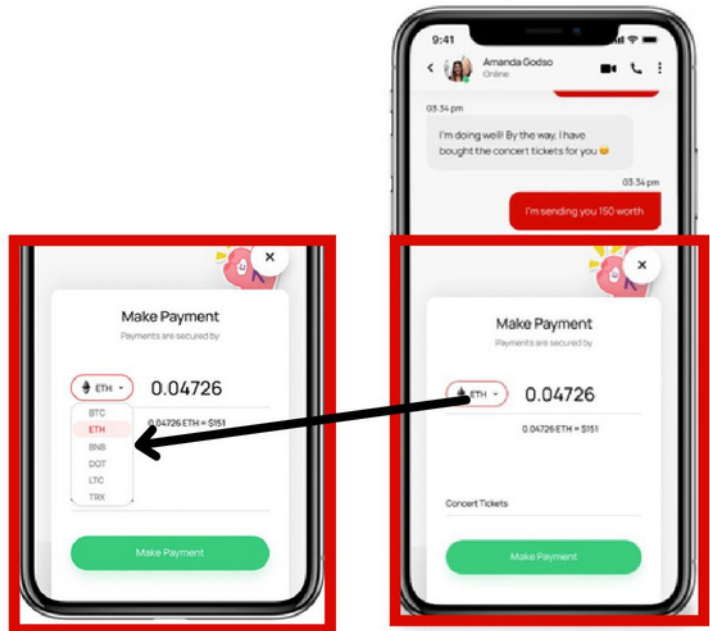

see next page.

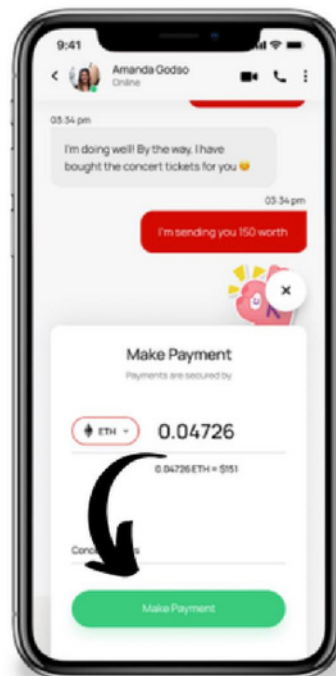

## IN-CHAT PAYMENTS EXPLAINED

Now, select the crypto asset that you wish to send, and enter the amount.

Notes section allows you to leave a message for the recipient.

Then click the 'Make Payment' button and you're done!

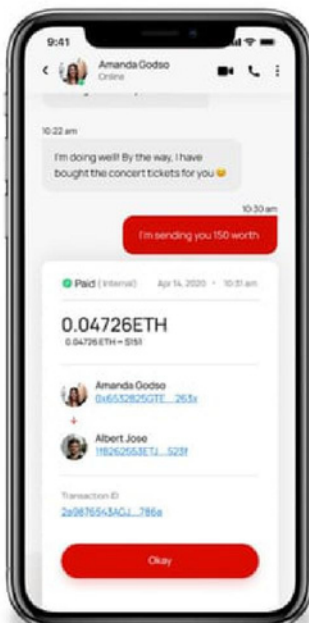

## IN-CHAT PAYMENTS EXPLAINED

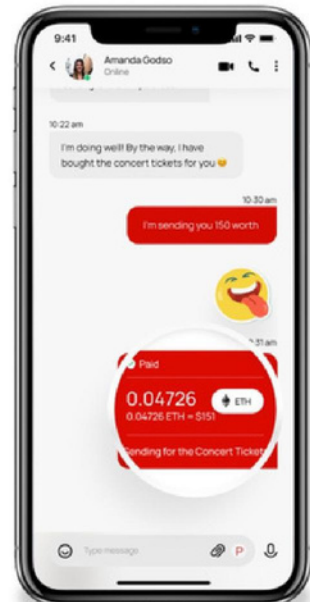

After making the payment, you will receive a payment notification, as illustrated here.

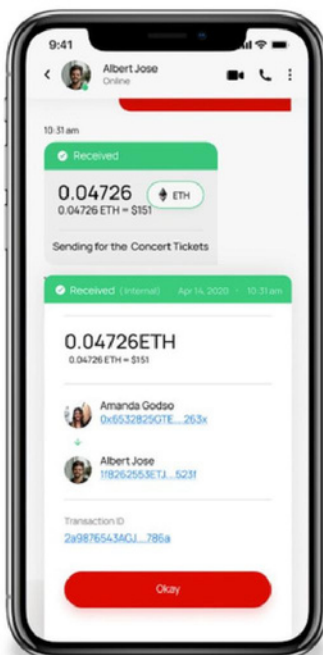

Clicking on this notification will give you the full details of the transaction.

This is what the transaction details look like.

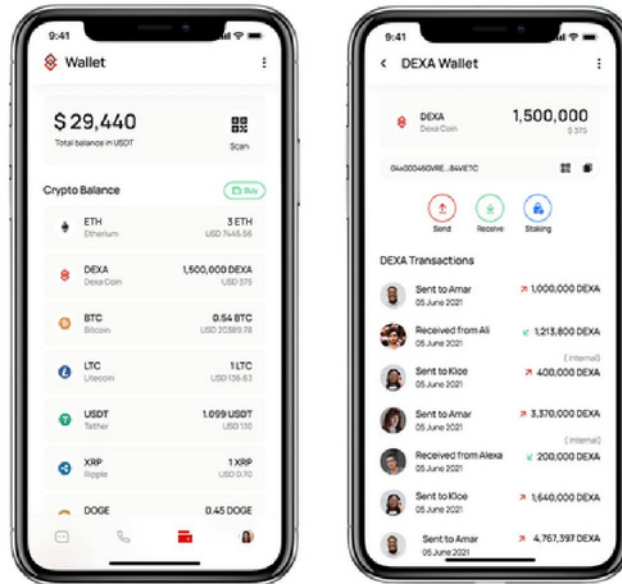

Simultaneously, the recipient will also get a 'Payment Received' notification.

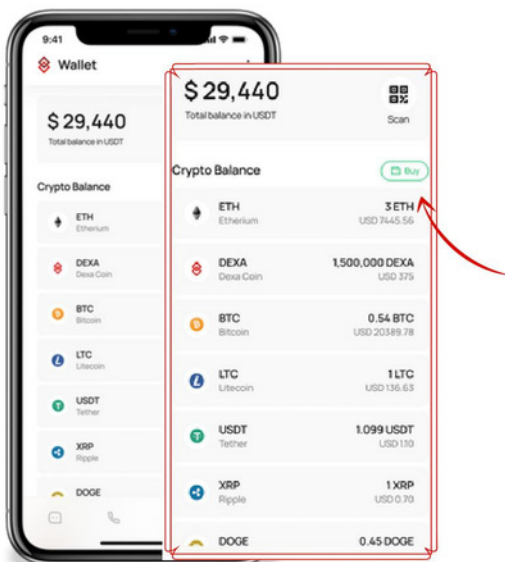

This is how the transaction details look like, from the recipient's perspective.

## DEXA WALLET & EXTERNAL TRANSACTIONS

Your In-App Wallet enables you to store crypto assets such as BTC, ETH, LTC and other crypto assets that we support.

You will be able to buy these assets directly from our wallet, through our third- party service provider.

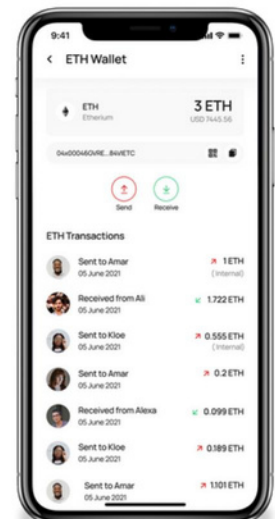

*\*Figures/prices shown are for illustration purposes*

Selecting the crypto asset you wish to send will take you to this screen.

Then, click the 'Send' button.

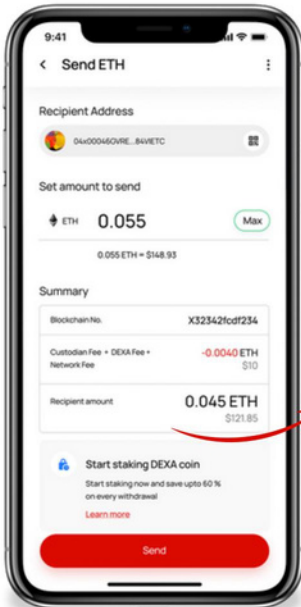

This portion of the screen shows you all the transactions for the crypto asset you selected.

*\*Figures/prices shown are for illustration purposes*

## DEXA WALLET & EXTERNAL TRANSACTIONS

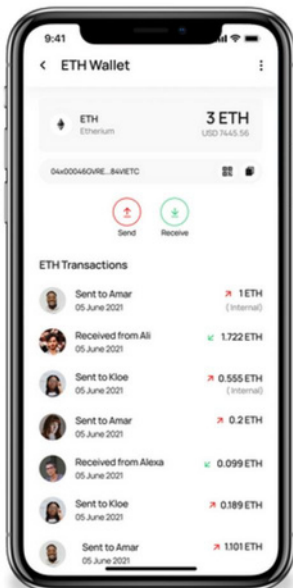

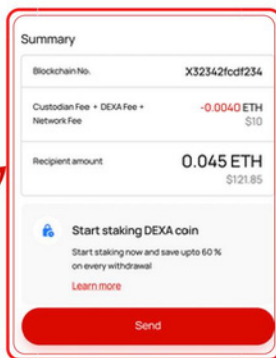

Enter the blockchain number of the recipient and the amount that you want to send.

### Important Notes:

- Make sure that the blockchain number is correct.
- DEXA Messenger charges a flat withdrawal fee which includes the Custodial fees.
- Lock/Stake your DEXA and enjoy upto 60% discount on all external transactions- outside the platform. .

*\*Figures/prices shown are for presentation purposes*

To receive a crypto asset coming from outside of the platform, just click on the 'Receive' button which will take you to this screen

Here you can get your blockchain number which you can share with your contacts.

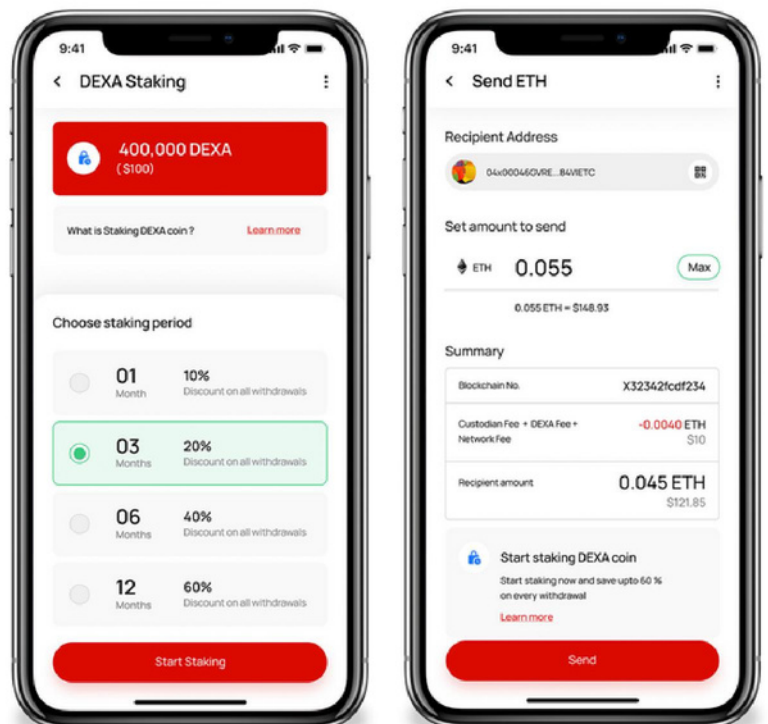

## STAKING **BENEFITS**

### WHY STAKE DEXA?

- In-Chat Payments within the platform are free. However, for all external transactions outside the platform, there will be a corresponding flat rate fee.
- Use your DEXA tokens to attain discounts on all crypto transactions outside of our platform.
- The longer you lock/stake your DEXA, the higher the discount you can attain - upto 60%.

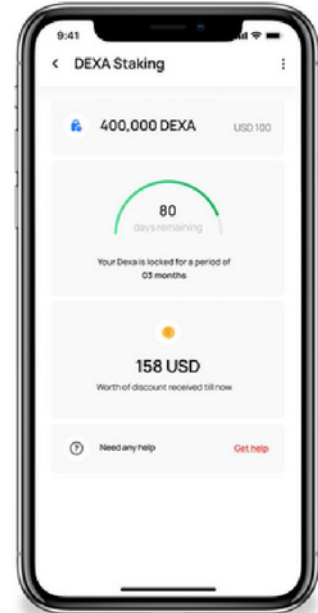

## STAKING **BENEFITS**

**ALL INFORMATION ABOUT STAKING IS PROVIDED, SUCH AS:**

- The Time Period.
- The Amount Staked.
- Most importantly, the total amount of discounts attained through staking over a period of time.

**FUTURE PLANS & DEVELOPMENTS REGARDING TOKEN UTILITY**

**USE YOUR DEXA TOKENS FOR:**

**IN-APP MOBILE  
GAMING**

**NFT  
PURCHASES**

**FUTURE  
PRODUCTS AND  
SERVICES**

- Multiplayer Mini Games
- Improve In- Game Performance
- Prepaid Cards
- Other upcoming product & services

# TOKEN UTILITY

DEXA is a Utility token, bought / used for the sole purpose of attaining services on the platform when they are available, such as attaining discounts on certain type of crypto transactions in the DEXA Messenger App, through the means of locking / staking "DEXA" on the platform.

The token "DEXA" is not a security. They do not represent any kind of stake, share, security, ownership or any right to shares. The ownership of "DEXA" tokens does not carry any rights other than to use them as a means to obtain discounts & services on the DEXA Messenger App when they are available.

## Reward Points

Reward points will be in the form of an Airdrop. Airdrop is a method of distributing free tokens to users who hold a certain amount of "DEXA" in their App Wallet. A user will be rewarded with free tokens based on the number of "DEXA" they hold in their wallet. This promotion will run for a limited time and will end at a given time frame.

## DEXA Token Holders

Token holders who hold "DEXA" outside the platform such as an exchange or a private wallet, will be able to transfer the tokens to the DEXA Messenger App once the wallet services for DEXA Token has been activated. Here the user can utilize their "DEXA" tokens to attain discounts on certain transactions & pay for some services.

## How can you utilize "DEXA" in the App

Here are some of the ways you can utilize "DEXA" in the App:

- 1 Attain discounts on all external crypto transactions outside the platform by the means of locking / staking "DEXA" on our platform.
- 2 Improve your In- App gaming performance such as skins/ upgrades by utilizing your "DEXA" on our platform. (Future Plans)
- 3 NFT Purchases. (Future Plans)
- 4 Purchasing other future products or services on our platform when they are available.

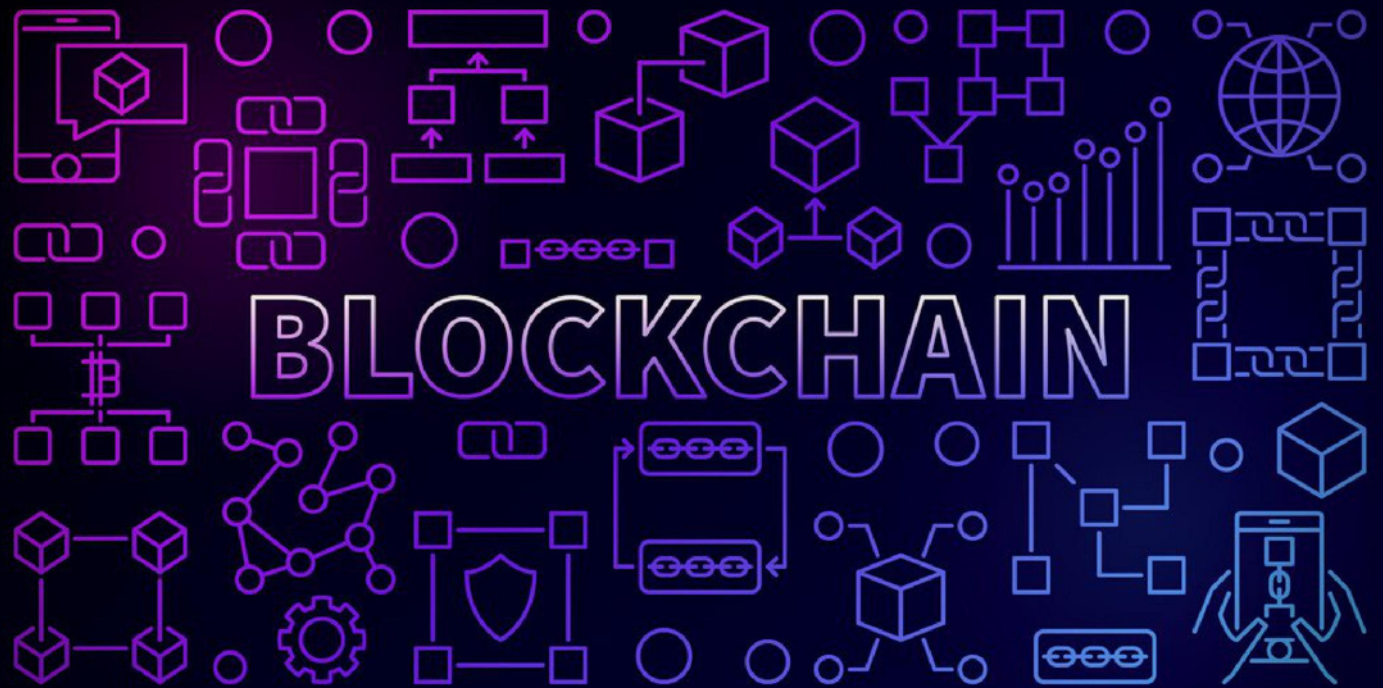

## Prepaid Cards

Prepaid Cards are a convenient alternative to people who don't have a bank account. Rolling out prepaid cards is something we want to apply for and begin at a later stage into the project. Once the card issuer grants us rights and permission, you will then be able to order for the prepaid cards and link the App to it. The Prepaid Card can be used in many cities around the world for shopping, payments and withdrawals. (Card limit and charges to be decided.)

Users will be able to order the prepaid card using our native "DEXA" tokens.

*Note: users of certain countries and regions may not be eligible to order prepaid cards.*

# DISCLAIMER

Please read & understand the disclaimer section carefully before you take any decision Or action related to this project.

This document does not constitute a prospectus in any way, nor does this whitepaper act as an offering to buy securities of any kind. This document is not subject to any rules or regulations, nor is it subject to any governing body. This document does not serve as protection of any kind to potential token buyers. It only provides basic information about the project, product, and information about our native token "DEXA" and its utility. Information about the token allocation is also included.

DEXA is a Utility token, bought/used for the the sole purpose of attaining services on the platform when they are available, such as Attaining discounts on certain type of crypto transactions in the DEXA Messenger App, through the means of locking/ staking "DEXA" on the platform.

The token is not a security. Tokens does not represent any kind of stake, share, security, ownership, or any right to share. The ownership of DEXA tokens does not carry any rights other than to use them as a means to obtain discounts & services on the DEXA Messenger App when they are available.

Some of the estimates and projections made in this whitepaper are future statements that currently have not been brought into realization. These projections might pose unknown risks and uncertainties that may in turn bring about differences between what is being documented and real-life events. All statements contained in this whitepaper and on our website cannot be declared historical facts as they are forward-looking statements and due to the nature of the project, these declarations are based on assumptions and total accuracy of prediction may not be guaranteed.

Always consult your legal advisor or seek legal advice from a lawyer / professional before buying any form of token from a project Presale/ICO/IEO to avoid penalties from the government. The token sales will only be made available to those who are eligible to purchase and hold tokens in their area of residence. Always ensure to understand the rules of the land regarding Token Sale before purchasing them. Ineligibility to hold a "DEXA" token most likely means that it is an offense, so we strongly advise you to consult your lawyer and beware of your status regarding the purchase and holding of any kind of cryptocurrency or token.

In the scenario that you purchase our token "DEXA" without adhering to the rules in your area of residence/city/ country, you risk legal actions being taken against you and this might mean fines or more extreme penalties being passed against you. In such a situation, DEXA COIN FZ LLC, DEXA COIN, and its team members will not be liable as you have been warned to know if you can purchase and hold the "DEXA" Token. Purchasing of "DEXA" Tokens illegally might also warrant your tokens being confiscated and you not having access to them again. On this account, we would like you to know that whatever action and steps you take concerning DEXA COIN, DEXA Messenger, and our native token "DEXA" will be at your risk and with your discernment. All information provided here is considered to be fit and to the best of our knowledge. However, relying on the information or acting upon it means that you are aware of the various risks that are involved and you fully understand them. If you do not understand the risks that come along with the purchase of our native "DEXA" Tokens, then we suggest you do some research and fully understand these risks before purchasing.

DEXA COIN FZ LLC, DEXA COIN, and its Team shall not be held responsible for any losses or damages incurred as a result of falling victim to the various risks and uncertainties associated with the purchase of our native token "DEXA".

DEXA COIN FZ LLC, DEXA COIN and its Team shall not be held responsible for any losses incurred when buying "DEXA" from the exchange or taking part in the IEO Token Sale.

This Offering of a Presale / ICO / IEO is only meant to offer tokens be used as a means to obtain services on the DEXA Messenger App when they are available.

All announcements regarding our project and its related documents including this whitepaper will be made available on our website [www.dexacoin.net](http://www.dexacoin.net) or our official social media platforms. Please do not pay attention to external information regarding our project unless being confirmed by members of our team. Please ensure that you download the original copy of our whitepaper as it will only be made available on our website and getting it from another source outside our website might mean that the document you downloaded is probably adulterated or tampered with.

# TERMS & CONDITIONS

Please read the terms and conditions carefully before you take any decision Or action related to this project.

- 1) Anti-Money Laundering (AML): Buyer/User agrees that he or she will not be involved in any money laundering, illegal currency exchange or any kind of illegal activities through DEXA Coin's native token "DEXA" or using DEXA Messenger App. You shall not use the tokens you obtain as a means to hoard large amounts of money through fraudulent means.
- 2) Funding of Terrorism (CFT ): Buyer /User agrees that he or she will not be involved in any kind of financing, exchanging, and supporting activities for funding or sponsoring terrorism through DEXA Coin's native token "DEXA" or by using DEXA Messenger App, Directly or Indirectly...
- 3) Risk of loss: The offer of DEXA Coin's native token "DEXA" is highly unpredictable as a result of the nature of the project and relation to its volatility it will have in the market and the fact that it's still in the early stage. Buyers must be aware of the underlying risk involved in the holding of our token. The purchase of the tokens is only fitting for people who understand, are able, and are willing to bear the risks involved. DEXA COIN FZ LLC, DEXA Coin, and Team will not be held responsible for any losses incurred by the " DEXA token holder" by holding the tokens or as a result of market volatility. "DEXA" is a utility token and not a security token. The tokens are used/bought for the sole purpose of attaining discounts on certain types of crypto transactions on the platform through the means of locking or staking "DEXA" on the platform.
- 4) We do not give the representation or claim that our project or product/products/DEXA Messenger App can be applicable for use in all regions even if the use of the token is allowed. DEXA COIN FZ LLC, DEXA Coin does not claim responsibility for any taxes or extra charges incurred for a transaction and if for any reason there is a need to pay taxes for whatever transaction you carry out.
- 5) PRESALE/ICO/IEO-Buyers' Legal Duties regarding restricted regions: This Offering of a Presale/ICO/IEO is only meant to offer tokens for users who would like to buy "DEXA" in order to attain services on the DEXA Messenger App when they are available, such as Attaining discounts on certain types of crypto transactions on the DEXA Messenger App, through the means of locking or staking "DEXA" on the platform.
- 6) Payments will not be accepted from persons, residents, or citizens from the following regions or countries such as Mainland China, the United States, Malaysia, the EU, and other regions or countries that prohibit ICOs / IEOs. People, residents or citizens from Mainland China, United States, Malaysia, the EU, and other regions or countries that prohibit ICOs / IEOs will not be allowed to take part in to the IEO token sale
